" Mystery still shrouds the events lead-Ing up to and following the murder in Jig up to and following the murder in the City' Home of little "Baby" Waughan, unless the grand jury, with Jis full powers, has been able to delve deeper than others interested in the case. Judging from the witnesses, all of whom, except the detectives, have heen examined before, the grand jury probably knows little more than has already been learned by the nublic.

probably knows little more than has lready been learned by the public. No motive has yet been established for the murder, though more inside light as to the conduct of the home affairs may have been made by the court, which is certainly carrying on the investigation more thoroughly than did the Committee on Relief of the Poor. It is confidently believed that whatever new facts have come to light relate principally to the management of the institution. Superlinement George B, Davis and Assistant Superincedent B. C. Lewis were among the chief witnesses examined yesterday. Investigating the Home.

Miss Margaret Venable, nurse at the home and Drs. Hoskina and Scott, in-ternes, were called in the morning. neir testimony was along the sam lines as that given before the coroner's gry and the Committee on Relief of the Poor. Dr. Frank M. Reade, Dr. McGuire Newton, of the visiting medical staft, and Chairman Julius A. Hobon, of the committee, were also called. They know nothing of the tragic ending of Baby Vaoghan, and were questioned only as to the management of the home.

The mother of the child will probably never be known to the public. She is said to be a Philadelphia woman, highly connected and a woman of standing. "Thompson" may, or may not, be called as a witness before the grand jury. As the inquiring body will not adjourn before the middle of next week, it may be that Mrs. Ethel Gaylord, who has been placed in an unfortunate light ever since the murder first became publicly known, will be examined. If she should be called, great weight would be given her testimony, for she was in the room several nights with Baby Vaughan and was the first to reach his side when the first attempt was made to poison him.

Goes Over Until Monday.

The grand jury adjourned at 1 o'clock, and reconvened at 3:30 in the afternoon. Superintendent Davis was the first witness. He was kept in the juryroom close upon an hour. His statements were in connection with the management of the institution, of which he is the official head. He was followed by his assistant, Mr. Lewis.

KELLY GIRL RUNS FROM HOME AGAIN

to Locate Adopted Child.

Little Mabel Kelly, the eleven-yearold ward of Mr. and Mrs. G. O. Timberlake, of Highland Park, who disappeared from her home some time
ago, and who was captured on Main
Street by Officer Dugan, after an absence of more than two days, has again
disappeared, and the Police Department has been instructed to look out
for her.

The girl's mother lives in North Carolina, but it is hardly thought that she
is attempting to get back to her, as
she is too young to realize or know
where her mother is located. The
mother of little Mabel gave the child
to the Timberlakes to raise some time
ago, saying that she was unable to
properly care for her. Since that time
she has run away from her adopted
parents several times, though she stated
at the First Police Station the last
time she was captured that both Mr.
and Mrs. Timberlake had been very
good to her.

After searching many hours the First
Station was advised at \$130 o'clock
this morning from Barton Heights
that the child had been found.
